DOOR, MORE THAN A SOFTWARE:

Increasing the added value
by improving quality and
lowering manufacturing costs.

DOOR AT GLANCE

- ✓ **DOOR connects critical pillars of organizational knowledge.**
Merging data and staff members.
Customized, on all devices, on all browsers.
- ✓ **DOOR converts quantity into quality and individuals into networks.**
Thereby, it ensures high transparency and a reduction of time and costs.

DOOR: TRANSPARENT AND EFFICIENT

By connecting data from different systems DOOR ensures that you can work transparently and at any time, from everywhere.

The software connects all relevant organizational data in a harmonized system by using the modules **project management, scientific experts, KPI, product launch, market analysis and study management.**
